DESCRIPTION
The sale of Millars Barn comprises an existing timber framed agricultural building, under a corrugated roof, with both front and rear lean-to extensions. The barn is surrounded mainly by agricultural land to the north and east and adjacent to residential properties on the western and southern boundaries. The barn is sold with amenity land for garden use.

PLANNING
BARN CONVERSION
The site has prior approval to convert the existing barn into two residential dwellings by Uttlesford District Council under application reference UTT/18/1633/PAP3Q. The consent provides for 437 square metres of residential floor space (footprint) to be converted within the existing building on the ground floor. The floor area is divided equally between the two dwellings, equating to 218.50 square metres (GIA) per property. Garage space is provided within the existing lean-to area.

The conversions provide an open plan ground floor layout, comprising a central entrance hall, open plan kitchen/dining area, a living room, boot room, four bedrooms and a family bathroom. The planning includes pre-implementation conditions.

Access is provided via a right of way from Millars Farmhouse.

NEW BUILD
The site also benefits from full planning permission for the demolition of the redundant agricultural building and erection of 2 new dwellings by Uttlesford District Council under application reference UTT/19/1603/FUL. The permission provides 2 detached dwellings with separate car ports.

The individual properties extend to approximately 154 square metres (GIA) of floor space each, measuring approximately 79 and 75 square metres on the ground and first floor respectively. The car ports each extend to approximately 39 square metres internally.

The ground floor accommodation comprises a central hallway with downstairs WC, kitchen/breakfast room with utility and boot room, dining room and living room. The first floor provides a main bedroom with ensuite, three further bedrooms and a family bathroom.

The units benefit from a large north facing garden to the rear of the property and allocated parking within the car ports. The planning includes pre-implementation conditions.

A new access to the detached dwellings is provided off the lane, as shown on the approved proposed plan.
